OUT OF TOWN

MEMORIES LAST FOREVER

*This song is not for anyone we play it just for you
that is what we'll do
I see you dancing in front of us I like this special moment
when you raise the dust
the shows we had the shows we planned
you give us power till the end*

*We love you thank you for supporting
OUT OF TOWN*

*Cause we are friends stayed together all these years
we will never disappear wish this moment last forever
cause we are friends we will never disappear
this moment can't be better whether good or even bad ones
memories last forever*

*So come on and raise your hands clap them as loud as you can
show me emotions that you have during a song a song like this*

*We love you thank you for supporting
OUT OF TOWN*

*Cause we are friends stayed together all these years
we will never disappear wish this moment last forever
cause we are friends we will never disappear
this moment can't be better whether good or even bad ones
memories last forever*

ALONE

*So here is a story
a story of my thoughts
thoughts that kill my sleep at night
there is one special thing that concerns me
but it won't get out of my mind*

*Here I am I'm thirty-five now
be thinking all the time
what if I'm ill or get crazy
who cares about me daily
I don't know*

*So please help me Jesus and send me someone
cause I don't wanna be alone*

*And how do I feel when there's no one left for me
and how do I feel when there's
no one
no one
no one
who cares about me*

*So this is the reason why I am depressed
but I still try to give my best
there are so many dreams that worry me
but everything just seems to be alright*

*So this was my story the story of my thoughts
thoughts that kill my sleep at night
don't know what I should do I think it's true
that I miss you*

*So please help me Jesus and send me someone
cause I don't wanna be alone*

*And how do I feel when there's no one left for me
and how do I feel when there's
no one
no one
no one
who cares about me*

IF IT'S TOO LATE

*What the hell are you talking about our time is over so just get out
you've given me nothing just wasted my time
now it's all over but I don't mind*

*Now my thoughts are starting to roll I'm thirty years old and life goes on
there's this thought that I can't fix so many things that I have missed*

You wonder I know it

*What if it's too late for me
what if it's too late for me
so many things I'd like to see*

*What if it's too late for me
what if it's too late for me
to change my personality*

*The day has come to decide to make a new start and see what it's like
time for rock scream and shout I will do it and figure it out*

You wonder I know it

*What if it's too late for me
what if it's too late for me
so many things I'd like to see*

*What if it's too late for me
what if it's too late for me
to change my personality*

*If it's all over and all hope is gone
if it's too late too late to move on*

*What if it's too late for me
what if it's too late for me
so many things I'd like to see*

*What if it's too late for me
what if it's too late for me
to change my personality*

REASON

*You lie to your friends they already know and so your egoism grows
maybe you don't recognise it at all*

*You've worked as a nurse went on Sundays to church
and so your lies go on and on
well I don't know what is right what is wrong*

*So give me a reason
a reason to trust you
please don't lie to me anymore
so give me a reason
a reason to trust you*

*Well I don't know what is right or what is wrong
well I don't know what is wrong*

*So you won't regret and I will never forget what you did to me
maybe someday we will see*

*Your father's name's Brad
but he is already dead
and so your lies go on and on
well I don't know what is right what is wrong*

*So give me a reason
a reason to trust you
please don't lie to me anymore
so give me a reason
a reason to trust you*

*So give me a reason
a reason to trust you
please don't lie to me anymore
so give me a reason
a reason to trust you*

*So give me a reason
a reason to trust you
please don't lie to me anymore
so give me a reason
a reason to trust you*

*Well I don't know what is right or what is wrong
well I don't know what is wrong*

DRUNK ALL DAY

*It's friday night again
and you walk out through the rain
my little baby daughter
have you ever felt ashamed when you wore dresses like them
I can't remember*

*Why do you grow up so fast
I don't want to be the last
in your life
I will stand up and fight take all the grit it's my right*

*You are drunk all day
so why don't you stay
your life can't be fine with whiskey and wine
you are drunk all day*

*It's three o'clock in the morning it's the top of the night
beer is empty boys are horny
there is the one who comes to you
he wants to FUCK shame on you
I hope you're still a virgin*

*Why do you grow up so fast
I don't want to be the last
in your life
I will stand up and fight take all the grit it's my right*

*You are drunk all day
so why don't you stay
your life can't be fine with whiskey and wine*

You are drunk all day

HERO IN THE SKY

*A lot of people are in a hurry every day
forget to spend time on important things
all day the same shit the drive to earn money
and the frustration grows over the top*

And so I hope that you live your own way of life

*I am the hero in the sky fly above the clouds
and I look down to the ground
the wind is blowing through my wings
and so I feel free because I am
the hero in the sky*

*Have trouble in work
come home and start to fight
everyone's down and sad about it
next day's situation no sensible word
silence the whole day and no answer yet*

And so I hope that you live your own way of life

*I am the hero in the sky fly above the clouds
and I look down to the ground
the wind is blowing through my wings
and so I feel free because I am
the hero in the sky*

*I am the hero in the sky fly above the clouds
and I look down to the ground*

*In the air I am free and I believe
that it's better than anywhere
on earth*

*The wind is blowing through my wings
and so I feel free
in my fucking good life*

*I do what I want
I fly where I want
because I am*

The hero in the sky

MY LIFE'S EMBARRASSING

*Have you ever felt what I feel now
these fucking times that come and go
when you're feeling down and blamed*

*I can't imagine that you still know me now
my thoughts my pain my up and downs
no you don't know me now*

*My parents are wondering
why I'm depressed and stumbling
but no one no one would understand
your life's so beautiful
get everything what you want
oh you're driving me insane*

*Up down and in between
my life's embarrassing
that's just one thing what you don't know about me
up down and in between
my life's embarrassing
you can't imagine how it feels
how it feels*

*Have you ever felt what I feel now
these fucking times that come and go
when you're feeling down and blamed*

*I can't imagine that you still know me now
my thoughts my pain my up and downs
no you don't know me now*

*My parents are wondering
why I'm depressed and stumbling
but no one no one would understand
your life's so beautiful
get everything what you want
oh you're driving me insane*

*Up down and in between
my life's embarrassing
that's just one thing what you don't know about me
up down and in between
my life's embarrassing
you can't imagine how it feels
how it feels*

WISHES

*Now I'm standing here on the stage
and I feel it I have this feeling of yesterday
I see this mass of people in front
and I'm dreaming I'm dreaming of a career today*

*Sometimes I have a wish
I'd live in a big house and be rich
each man would know my name
if I just had the money and fame*

*Will always be a wish
will always be a dream
hope dies in the end
but someday I'll win*

*Will always be a wish
will always be a dream
hope dies in the end
but someday I'll win*

*So I'm standing here on the stage
and I feel it I have this feeling of yesterday
I see this mass of people in front
and I'm dreaming I'm dreaming of a career today*

*Will always be a wish
will always be a dream
hope dies in the end
but someday I'll win*

*Will always be a wish
will always be a dream
hope dies in the end
but someday I'll win*

LOVE SONG

*Now I'm standing here in the rain
everything's gone and I feel ashamed*

*It was twelve years ago
when I walked out through the door
and left you alone*

*You always said it doesn't make sense
but if I'd leave then it would help
our son was two years old
and I never saw him growing up*

*At this moment my heart broke
in thousand pieces cause you threw it away
so far away
it hurts so much deep inside
and I regret that I have lied
but now it's over and we can't hide*

*Now I'm starting to search for a new home
far from you and far from my town
where I can live on my own
and I'm still standing here in the rain
thinking of you and my son
I hope you have fun*

*You always said it doesn't make sense
but if I'd leave then it would help
our son was two years old
and I never saw him growing up*

*At this moment my heart broke
in thousand pieces cause you threw it away
so far away
it hurts so much deep inside
and I regret that I have lied
but now it's over and we can't hide*

GOING BAD

*Many years of humiliation years of feeling sad
many people were bullying me and I just went ahead*

*Now I don't really care about what all the others say
cause at least I'm strong enough to push these minds away*

*Have you ever seen me crying
when I was down on the floor
you've never asked me how I feel
when things are going bad*

*When they are going bad
you've never asked me how I feel
or what I feel for you
when things are going bad*

*Time of sadness is over pushed all the pain away
starting a new chapter was the best choice I've ever made*

*Now I don't really care about what all the others say
cause at least I'm strong enough to push these minds away*

*Have you ever seen me crying
when I was down on the floor
you've never asked me how I feel
when things are going bad*

*When they are going bad
you've never asked me how I feel
or what I feel for you
when things are going bad*

*Have you ever seen me crying
when I was down on the floor
you've never asked me how I feel
when things are going bad*

*When they are going bad
you've never asked me how I feel
or what I feel for you
when things are going bad*

JUST LIVE YOUR LIFE

*Mum always begged you to stay at home
take no drugs drink no alcohol
dad always told you you're such a fool
turn off TV and do work for school
that is important for your later life
if you want to survive if you want to survive*

*So be careful and see what happened to me
take all what you get and listen to me*

*Just live your life
it's too short to waste time
be happy and satisfied
with all you have got*

*Just live your life
you have the chance
so use it before it is too late
before it is too late*

*You're getting older now you're grown up
have a job but it really sucks
bought an apartment on the main street
have more money than you need
one day you'll wake up and realize
the meaning of life the meaning of life*

*So be careful and see what happened to me
take all what you get and listen to me*

*Just live your life
it's too short to waste time
be happy and satisfied
with all you have got*

*Just live your life
you have the chance
so use it before it is too late*

Before it is too late

MOTIVATION

*Here we are here we go
preparing for the show
once again there's this moment
we've been waiting for*

*Now we start now we go
together in a row
can you hear their screaming
they are ready for rock'n roll*

HEY GO ROCK SHOUT

*Together we are stronger
and blow them away
side by side here we go
forever day by day*

*Now the lights go on
they're flashing one by one
people are screaming
and that's the greatest feeling*

*Motivation grows up
grows up to the top
we are proud of our fans
there should not be an end*

HEY GO ROCK SHOUT

*Together we are stronger
and blow them away
side by side here we go
forever day by day*

*Together we are stronger
and blow them away
side by side here we go
forever day by day*
